Latest ForeclosuresMass.com Report Reveals Explosive Increase in Massachusetts Foreclosures as Holidays Approach

– Over 2,000 Massachusetts Homeowners Had Foreclosures Filed Against Them in October 2006; Highest Monthly Total in Over 10 Years; 111% Higher Than October 2005 and 219% Higher than October 2004 –

FRAMINGHAM, Mass. — December 12, 2006 — ForeclosuresMass.com, the leading provider of Massachusetts foreclosure data for investors, real estate professionals and mortgage brokers, released its November 2006 Massachusetts Market Analysis Report today, with data revealing that foreclosure filings in Massachusetts are shattering previous records. The report shows that 2,188 foreclosures were initiated statewide during the month of October 2006, 111% more than October 2005 and 219% above 2004 levels.

“2006 has been a very unhappy year for thousands of Massachusetts homeowners, and as the holidays approach we are seeing a massive increase in foreclosure filings,” said Jeremy Shapiro, president and co-founder of ForeclosuresMass.com. “By October 31st of 2006 every county in Massachusetts already had more foreclosure filings than the entire 2005 calendar year. Unfortunately, the holiday season will be difficult for many homeowners.” Shapiro also noted that the cold months of the year are just setting in, and increased home heating costs will put additional pressure on household budgets.

Shapiro urged homeowners in jeopardy of falling behind in mortgage payments to seek immediate help and guidance. In addition to understanding their rights, homeowners should keep in contact with their mortgage lenders and seek help from real estate, investment and mortgage professionals experienced in dealing with foreclosure situations.
